**INTRODUCTION**

**Phubbing**

**OBJECTIVES**
1. Ignoring someone with whom we are having an interpersonal relationship to look at our mobile device.
2. Analyzing the structural validity and reliability of a scale within a sample of Peruvian university students.
3. Improving the scale from an initial evaluation.
4. Identifying phubbing profiles amongst participants.

**Limitations**

A need exists for research studies with populations from other regions and sociocultural contexts with social desirability bias.
